

INVERTER

GPI-1000VA#12VT

GOGO
POWER

Off - Grid Inverter

Features

- > Low self discharge
- > Pure sine wave output, adapted to all type of load
- > Short circuit protection
- > Adjustable parameters in LCD display

Technical Specifications

Model	GPI-1000VA#12VT
AC Input	220VAC
AC Input range	154-264VAC±3V (AC mode) 185-264VAC±3V (UPS mode)
Input frequency	50/60Hz ± 5%
Rate power	600W
AC output	220VAC
AC output frequency	50/60Hz
Waveform	Pure sine wave
Battery type	AGM/ Flooded/ Lithium
Battery voltage	12VDC
Battery charge voltage	13.7VDC
Maximum AC charge current	20A
Transfer time	≤10ms (UPS Mode) / ≤20ms (INV Mode)
Surge Power	(MAX) 3:1
Standby self discharge (W)	Toriodal transformer 12V: 8W
Protection	Over current, overload, short circuit, low voltage, anti reverse
Working temperature	0°C~40°C
Humidity	0°C~90°C
Noise	<45dB
Size (L*W*H)mm	287*258*115MM
Package size (L*W*H)mm	375*317*183MM
Weight/kg	7.86/8.59
